## CALENDAR, 1914-1915

## 1914

September 28-30—Examinations for Removal of Conditions.

September 28-30—Matriculation and Registration.

October 1—First Semester Begins.

November 26 (Thanksgiving Day)—Holiday recess until the following Monday.

## 1915

December 21-January 3, 1915—Christmas Recess.

January 28-29-30—First Semester Examinations.

February 1—Second Semester begins.

February 22—Washington's Birthday (A Holiday).

May 24-31—Second Semester Examinations.

June 9—Commencement Exercises at Portland.

September 29—Examinations for Removal of Conditions.

September 30-31—Matriculation and Registration.

October 1—First Semester begins.

## OFFICERS OF THE UNIVERSITY

## THE BOARD OF REGENTS

## OFFICERS

HON. ROBERT S. BEAN, President.

L. H. JOHNSON, Secretary

## EXECUTIVE COMMITTEE

HON. ROBERT S. BEAN, Chairman

HON. SAMSON H. FRIENDLY.

HON. C. H. FISHER

## DEPARTMENT OF MEDICINE

## FACULTY

- P. L. CAMPBELL, B. A., L. L. D., President of the University.  
HENRY E. JONES, M. D., Emeritus Professor of Clinical Gynecology.  
GEORGE MILTON WELLS, M. D., Emeritus Professor of Pediatrics.  
ANDREW JACKSON GIESY, M. D., Emeritus Professor of Clinical Gynecology.  
SIMEON EDWARD JOSEPHI, M. D., Professor of Nervous and Mental Diseases. Head of Department of Mental and Nervous Diseases and Medical Jurisprudence.  
OTTO SALY BINSWANGER, Ph. D., M. D., Professor of Organic Chemistry, Head of Department of Organic Chemistry.  
KENNETH A. J. MACKENZIE, M. D., C. M., L. R. C. P. and L. R. C. S. Edin., Dean, Professor of Operative and Clinical Surgery, Head of Department of Surgery.  
RICHARD NUNN, B. A., B. Ch., M. D., Professor and Head of Department of Diseases of Eye, Ear, Nose and Throat.  
JAMES FRANCIS BELL, M. D., L. R. C. P. London, Professor of Theory and Practice of Medicine, Head of Department of Medicine.  
GEORGE FLANDERS WILSON, M. D., Professor of Principles and Practice of Surgery.  
ERNEST FANNING TUCKER, B. A., M. D., Professor of Gynecology, Head of Department of Gynecology.  
EDMUNDE JOHN LABBE, M. D., Professor of Pediatrics.  
GEORGE BURNSIDE STORY, M. D., Professor of Obstetrics, Head of Department of Obstetrics.  
ALBERT EDWARD MACKAY, M. D., Professor of Genito-Urinary Diseases.  
JAMES CULLEN ZAN, M. D., Associate Professor of Clinical Surgery.  
ROBERT CLARKE YENNEY, M. D., Professor of Clinical Medicine.  
JOHN DICE MACLAREN, M. S., M. D., Professor of Physiology, Head of Department of Physiology.  
RICHARD B. DILLEHUNT, M. D., Professor of Anatomy, Head of Department of Anatomy.  
H. B. MYERS, Professor of Materia Medica, Pharmacology, and Toxicology, Head of Department of Pharmacology.  
ROBERT LOUIS BENSON, A. M., M. D., Professor of Pathology, Head of Department of Pathology and Bacteriology.  
HOWARD D. HASKINS, A. B., M. D., Professor of Physiological Chemistry, Head of Department of Physiological Chemistry.  
WILLEY HIGBY NORTON, A. B., M. D., Associate Professor of Bacteriology, Assistant Dean.

## ASSISTANT PROFESSORS

ALVIN WALTER BAIRD, A. B., M. D., Assistant Professor of Surgery.  
J. ALLEN GILBERT, Ph. D., M. D., Assistant Professor of Medicine.  
WILLIAM HOUSE, M. D., Assistant Professor of Nervous and Mental Diseases.

J. C. ELLIOTT KING, A. B., M. D., Assistant Professor of Dermatology and Syphilology.

CLARENCE J. MCCUSKER, B. S., M. D., Assistant Professor of Obstetrics.

OTIS BUCKMINSTER WIGHT, A. B., M. D., Assistant Professor of Gynecology.

GEORGE SHATTUCK WHITESIDE, M. D., Assistant Professor of Genito-Urinary Surgery.

CALVIN S. WHITE, M. D., Assistant Professor of Medicine. (Hygiene and Sanitation.)

ROBERT H. ELLIS, M. D., Assistant Professor of Obstetrics.

RALPH CHARLES MATSON, M. D., Assistant Professor of Medicine.

In charge of Tuberculosis Division of Out-Patient Department.

RAY W. MATSON, M. D., Assistant Professor of Medicine. In charge of Tuberculosis Division of Out-Patient Department.

## ASSOCIATES

GEORGE AINSLIE, M. D., Associate in Ophthalmology.

OTIS FRANKLIN AKIN, M. D., Associate in Surgery (Orthopedic).

J. B. BILDERBACK, M. D., Associate in Pediatrics.

JOHN N. COGHLAN, M. D., Associate in Otology.

RALPH A. FENTON, A. B., M. D., Associate in Rhinology and Laryngology.

L. H. HAMILTON, A. B., M. D., Associate in Surgery.

GEORGE F. KOEHLER, M. D., Associate in Medicine.

HARVEY G. PARKER, M. D., Associate in Dermatology.

GEORGE NORMAN PEASE, A. B., M. D., Associate in Surgery.

FRANK M. TAYLOR, A. B., M. D., Associate in Medicine.

RALPH C. WALKER, M. D., Associate in Medicine.

FRED ZIEGLER, B. S., M. D., Associate in Surgery.

J. EARLE ELSE, M. D., Associate in Pathology.

A. N. CREADICK, A. B., M. D., Associate in Anatomy.

## INSTRUCTORS

HORACE BURNETT FENTON, A. B., M. D., Instructor in Therapeutics.  
DONALD H. JESSOP, Phm. G., M. D., Instructor in Anatomy.  
WILLIAM S. KNOX, M. D., B. S., Instructor in Medicine.  
FREDERICK A. KIEHLE, A. B., M. D., Instructor in Ophthalmology.  
MARY V. MADIGAN, M. D., Instructor in Physiology and Anaesthesia.  
JAMES WENDELL ROSENFELD, A. B., M. D., Instructor in Pediatrics.  
LAWRENCE SELLING, A. B., M. D., Instructor in Medicine.  
WILLIAM A. SHEA, M. D., Instructor in Medicine.  
PERRY J. PAYNE, S. B., M. D., Instructor in Dermatology.  
SHERMAN E. WRIGHT, A. B., M. D., Instructor in Ophthalmology  
and Otology.

## ASSISTANTS

COURTLAND LINDEN BOOTH, A. B., M. D., Assistant in Medicine.  
C. GERTRUDE FRENCH, B. S., M. D., Assistant in Ophthalmology.  
MARY MACLACHLAN, M. D., Assistant in Obstetrics.  
WILLIAM GEORGE SCOTT, M. D., Assistant in Obstetrics.  
MARR BISAILLON, M. D., Assistant in Anatomy and the Out-Patient  
Tuberculosis Clinic.  
HARRIET J. LAWRENCE, M. D., Assistant in the Out-Patient Tuber-  
culosis Clinic.  
C. STUART MENZIES, M. D., Assistant in Anatomy.

## COMMITTEES OF THE FACULTY

(The first named is Chairman)

ADMINISTRATION AND FINANCE—Kenneth A. J. Mackenzie, J. F. Bell, O. S. Binswanger, S. E. Josephi and E. F. Tucker.

REVISION OF CURRICULUM AND ADVANCED STANDARDS—W. H. Norton, R. B. Dillehunt, J. D. MacLaren, G. B. Story and R. L. Benson.

LEGISLATION—K. A. J. Mackenzie, S. E. Josephi, E. F. Tucker, E. J. Labbe and R. C. Yenney.

RULES—A. E. Mackay, R. B. Dillehunt, J. D. MacLaren, G. B. Story, and W. H. Norton.

ADMISSION, PROMOTION AND PREPARATORY SCHOOLS—R. L. Benson, R. B. Dillehunt, H. D. Haskins, R. C. Yenney and W. H. Norton.

GROUND, BUILDINGS, AND IMPROVEMENTS—K. A. J. Mackenzie, R. Nunn, R. B. Dillehunt, S. E. Josephi and J. C. Zan.

STUDENT AFFAIRS—J. C. Zan, W. H. Norton, H. D. Haskins, R. L. Benson and G. B. Story.

SCHOLARSHIPS AND ENDOWMENTS—E. F. Tucker, E. J. Labbe, K. A. J. Mackenzie and George F. Wilson.

FACULTY AND STUDENTS' LIBRARY—J. D. MacLaren, R. L. Benson and G. B. Story.

## DEPARTMENT OF MEDICINE

## STUDENTS, 1914-1915

## CANDIDATES FOR THE DEGREE OF DOCTOR OF MEDICINE

†Special Students.

## FOURTH YEAR

WALTER R. ANDERSON.	Portland, Oregon.	<i>St. Vincent's Hospital.</i>
HARRY CLYDE BLAIR.	Tacoma, Wash.	520 <i>Medical Bldg.</i>
CHARLES F. BLOOM.	Mill City, Oregon.	231½ <i>N. 2nd St.</i>
MARK W. EMERY.	Gresham, Oregon.	189½ <i>23rd St.</i>
FRANK CLEVELAND HART.	St. Johns, Oregon.	303 <i>Smith Ave.</i>
†TOKUJI HIRATA.	Portland, Oregon.	269½ <i>Everett St.</i>
IVAN CHARLES JACKSON.	Cornelius, Oregon.	741 <i>Glisan St.</i>
WILLIAM J. JONES.	Portland, Oregon.	670 <i>Northrup St.</i>
IRVING MARTIN LUPTON.	Portland, Oregon.	<i>Alexandra Court.</i>
ELDRIDGE G. MARGASON.	Shedds, Oregon.	712 <i>Hoyt St.</i>
WILLIAM L. MILLER.	Saginaw, Mich.	672 <i>Kearney St.</i>
W. B. MCNERTHNEY.	Tacoma, Wash.	684 <i>Glisan St.</i>
DORWIN L. PALMER.	Portland, Oregon.	1276 <i>Haight St.</i>
HAROLD C. PALMER.	Portland, Oregon.	<i>St. Vincent's Hospital.</i>
GLENN EDWARD PRIME.	Portland, Oregon.	52 <i>N. 23rd St.</i>
CHARLES GEORGE RATTNER.	Portland, Oregon.	<i>Good Samaritan Hospital.</i>
EARLE MILFORD RICE.	Wellsville, N. Y.	2nd and <i>Oak Sts.</i>
JACKSON CARLE RINEHART.	Portland, Oregon.	1022½ <i>Hawthorne Ave.</i>
PAUL A. SCHMIDT.	Oregon City, Oregon.	766 <i>Lovejoy St.</i>
W. WM. STEELHAMMER.	Silverton, Oregon.	741 <i>Glisan St.</i>

## THIRD YEAR

HORACE P. BELKNAP.	Prineville, Oregon.	209 <i>10th St., So.</i>
WALTER W. BLACK.	Beverly, Mass.	416 <i>Mohawk Bldg.</i>
FRANK E. BUTLER.	Salem, Oregon.	710 <i>Washington St.</i>
CHARLES W. CARTER.	Portland, Oregon.	766 <i>Lovejoy St.</i>
HARRY SWEET HARDING.	Portland, Oregon.	309 <i>Sweetland Bldg.</i>
JOHN PATRICK HUGHES.	Heppner, Oregon.	
FLOYD B. LAWTON.	Eugene, Oregon.	710 <i>Washington St.</i>
CLAUDE ALLEN LEWIS.	Springbrook, Oregon.	1141 <i>E. Madison St.</i>
WILLIAM CHARLES MUNLEY.	Portland, Oregon.	1171 <i>Clinton St.</i>
CHARLES RAFFERTY MCCOLL.	Gresham, Oregon.	189½ <i>N. 23rd St.</i>
R. E. POMEROY.	Salem, Oregon.	735 <i>Hoyt St.</i>
ROBERT A. SHERWOOD.	Portland, Oregon.	1029 <i>E. Main St.</i>
WILBUR H. THOMPSON.	Gresham, Oregon.	189½ <i>N. 23rd St.</i>
J. A. TROMMALD.	Portland, Oregon.	822 <i>Savies St.</i>
HENRY A. ULVIN.	Silverton, Oregon.	250 <i>North 19th St.</i>
RAY M. WALTZ.	Monroe, Oregon.	250 <i>North 19th St.</i>

## SECOND YEAR

JAMES FRANCIS BELL, JR.	Portland, Oregon.	821 <i>Irving St.</i>
ERNEST A. DAUS.	Weiser, Idaho.	

ISAAC DELLAR	Portland, Oregon.	874 Northrup St.
LUCILLE HART.	Albany, Oregon.	
	13th and Morrison, Rex Arms Apts. No. 502.	
ROY W. HENDERSHOTT.	Tiffin, Ohio.	704 Lovejoy St.
EARNEST D. LAMB.	Eugene, Oregon.	675 Glisan St.
MURRAY M. LEVY.	Portland, Oregon.	
	Elmwood Apts., 10th and Hall.	
RALPH L. LIESER.	Vancouver, Wash.	603 East 34th St.
J. A. LOUNDAGIN.	Portland, Oregon.	196 E. Jarrett St.
MARION N. POWER.	Sande Luca, Wash.	Hotel Campbell.
HERBERT VAN H. THATCHER.	Portland, Oregon.	663 Northrup St.
OTTO RUDOLPH THIELEMAN.	Portland, Oregon.	698 Glisan St.
THURLOW TYLER-SMITH.	Sheridan, Oregon.	
	21st and Irving, Barker Apts.	

## FIRST YEAR

ANSON G. ALLEN.	Astoria, Oregon.	779 Marshall St.
HUGH H. BRAN.	Portland, Oregon.	387 12th St.
†ELSE H. CARR.	Montesano, Wash.	
	Claypool Apts., 11th and Clay.	
FRANK J. CLANCY.	Seattle, Wash.	782 Lovejoy St.
NICHOLAS S. CHECKOS.	Portland, Oregon.	29½ N. 6th St.
JOHN JEWETT DARBY.	Pomeroy, Wash.	253 21st N.
MARY LENA DUFFNER.	Chicago, Ill.	632 Flanders St.
JOHN B. FARRIOR.	Portland, Oregon.	Wheeldon Annex.
GEO. E. FORTMILLER.	Albany, Oregon.	52 N. 23rd St.
IRA E. GASTON.	Astoria, Oregon.	253 N. 21st St.
JAMES C. GHORMLEY.	Estacada, Oregon.	289 E. 74th St. N.
REN L. HOLSCRAW.	Oregon City, Oregon.	167 Stout St.
EDWARD J. JASPER.	Forest Grove, Oregon.	750 Lovejoy St.
JESSE DALE JEWELL.	Portland, Oregon.	899 E. Everett St.
RUSSELL KEIZER.	Portland, Oregon.	106 Pennoyer St.
RICHARD P. LANDIS.	Albany, Oregon.	750 Lovejoy St.
IRVING E. LLOYD.	Tumwater, Wash.	448 Burnside St.
MICHAEL J. MELCHIOR.	Tillamook, Oregon.	
GEO. W. MONTGOMERY.	Falls City, Oregon.	68 N. 14th St.
RIKICADZU OKAMOTO.	Portland, Oregon.	121 N. 15th St.
KATHRYN RUETER.	Portland, Oregon.	736 Hoyt St.
LEE A. ROWELL.	Portland, Oregon.	1594 Jordon, St.
ROBERT B. SMALLEY.	Seattle, Wash.	750 Lovejoy St.
CLARENCE W. SHANNON.	Seattle, Wash.	735 Everett St.
DELBERT C. STANARD.	Portland, Oregon.	361 Benton St.
DENNIS S. SWART.	Woodland, Wash.	254 Union Ave. N.
EUGENE P. STEINMETZ.	Portland, Oregon.	1520 E. Taylor St.
HERBERT L. STRONG.	Portland, Oregon.	536 E. 15th St. N.
J. WESLEY TAYLOR.	Spokane, Washington.	
DOUGLAS HOLMES WARNER.	Portland, Oregon.	724 Hancock St.
RANDALL F. WHITE.	Portland, Oregon.	182 E. 23rd St.
CHARLES W. YEILDING.	Portland, Oregon.	617 E. 13th St. N.
RALPH G. YOUNG.	Portland, Oregon.	214 E. 45th St.

## THE UNIVERSITY

### HISTORICAL SKETCH

The University of Oregon was established by Act of the State Legislature, October 19, 1872, and located at Eugene. Deady Hall, the first University building, was erected by the citizens of Lane County, and presented to the Board of Regents in July, 1876. In September of the same year, the University opened its doors for the reception of students. The first class was graduated in June, 1878. Eugene is a rapidly growing city of over 12,000 people. It is one of the most prosperous towns in Oregon. The School of Medicine and the School of Law are located in Portland.

The following buildings are located on the University grounds:

**DEADY HALL**, a three-story building. It contains the Biological and Physical laboratories, and the departments of Latin, Greek, Romance Languages, German, and Modern English Literature.

**VILLARD HALL**, erected in 1885, is an imposing cemented brick building, and contains the offices of the President, the Registrar, the Steward, the Assembly Hall of the University, the very valuable Condon geological collection, and the departments of Early English Literature, Geology and Mathematics.

**MCCLURE HALL** was built in 1900. It is devoted to the department of Chemistry, and is admirably adapted to its purpose. It has three floors, with laboratory facilities for 200 students, and contains the latest appliances for research work in all lines of mining and of manufacturing chemistry. It has hoods and ventilators for carrying off gases, electric motors for operating machinery, and is modern in every respect. A part of the third floor for the present is used as class rooms in Mathematics, Psychology, and for the Psychological laboratory.

**THE ELECTRICAL BUILDING**, erected in 1901, contains the central heating and lighting plant of the University, and the class rooms and laboratories of the Department of Electrical Engineering. The shops are run by electricity and are well equipped with tools and machinery.

**THE TIMBER TESTING STATION** was established in 1905. The Testing Laboratory is equipped with the latest machines and appliances necessary for testing the strength of timber, stone and metals.

THE GIRLS' GYMNASIUM is a brick building, well fitted with suitable apparatus for the use of the women of the University only.

THE MEN'S DORMITORY, erected in 1893, is a three-story brick building, equipped with electric lights, steam heat, hot and cold baths, well-furnished parlors and every convenience for the comfort of its guests.

THE LIBRARY BUILDING, completed in June, 1907, is a two-story with basement building, of buff pressed brick.

MARY SPILLER HALL, erected in 1907, will accommodate about 20 girls. It is a two-story and basement building, modern in all respects, well heated and lighted and comfortably fitted for living.

ENGINEERING HALL was completed in February, 1909. It is a handsome two-story building, designed especially for engineering instruction. It houses all of the departments of Civil Engineering.

THE MEN'S GYMNASIUM. The new gymnasium for men is one of the best arranged on the Coast. It is fitted completely with all modern conveniences, the best apparatus, an indoor running track, a swimming pool, shower baths, lockers, etc.

The athletic field has a four-lap track surrounding a well-constructed football field. The grandstand and the bleachers will seat 3,500.

## DEPARTMENT OF MEDICINE

## HISTORY

The Medical Department of the University of Oregon was established at Portland in 1887 by a charter from the Regents of the University. The first building was a small frame structure located at what is now the corner of Marshall and Twenty-second Streets, on the grounds of the Good Samaritan Hospital. It consisted of a single lecture room on the ground floor, and an anatomical laboratory, on the upper floor. In 1890, the present lot was purchased, and the building was transferred to it and remodeled. The present building was erected in 1892. It is a three-story structure and contains well equipped laboratories, a convenient dissecting room, two large lecture rooms, and the medical school library.

The merger of the Medical Department of the Willamette University, the first foundation of the kind in the State of Oregon, with the Medical Department of the University of Oregon, was effected by mutual and friendly arrangements on the first day of September, 1913. Under the terms of the merger the Medical Department of the Willamette University retired permanently from the field of medical education, and transferred its entire enrollment, numbering 40, to the State School in the city of Portland, and arrangements were effected so that the students of the Willamette University will graduate during the course of the following three years, and shall receive degrees indicative of the merger of the two schools, and the alumni of both schools will be consolidated under the Medical Department of the University of Oregon, which becomes at once the sole school of medicine in the Pacific Northwest, thus serving the largest territory in the United States served by one medical school.

In the spring of this year a gift of 20 acres of land was made to the Medical Department of the University of Oregon by the Executive Committee of the Oregon-Washington Railroad and Navigation Company.

The gift was made through the favor of Mr. J. D. Farrell, the president of the Company, who gave the Dean of the school an opportunity of making an appeal to Mr. Lovett, chairman of the Board, for the campus.

The written argument of the Dean was then laid before the Executive Committee in New York, and the authority for the dedication was issued on March 4, 1914.

The campus is situated on Marquam Hill, one of the most attractive scenic points in the city of Portland, and will be approached by easy grades over the Terwilliger Boulevard.

Under the terms of the gift it will be possible to erect hospitals upon the campus which will enable the Faculty of the school to give the most practical instruction upon all branches of medicine.

The plan for the erection of a group of buildings of classic design, including hospitals, is now being considered by the Regents and Faculty for presentation to the Legislature.

### LOCATION

The Medical School is located at the corner of Twenty-third and Lovejoy Streets, opposite the Good Samaritan Hospital, and is reached by the Washington and Twenty-third Street cars.

### ORGANIZATION AND GOVERNMENT

The Medical Department is governed locally by the Executive Faculty, composed of the Professors and Associate Professors; but is responsible to the Regents of the University of Oregon, of which it is an integral part, in both scholastic and financial matters.

The teaching body consists of 60 members. There are 18 professors, ten of whom are heads of their respective departments, and six of whom devote their time to the work of the first two years. In addition to these there are assistant professors, associates, instructors, and assistants in the various departments.

## DEPARTMENT OF MEDICINE

DOCTORS OF MEDICINE OF THE UNIVERSITY OF  
OREGON AND THE WILLAMETTE UNIVERSITY

First class University of Oregon, 1887.

Van Vlerah, Clyde C. B., 84 Portland Blvd., Portland, Oregon (W)  
Wade, Charles Benjamin, Roseburg, Oregon (W)  
West, Melville Abbott, Rosalia, Wash.

## FACILITIES

### BUILDINGS

The college building is a three-story structure, heated by hot water and lighted by gas and electricity. The didactic and laboratory work is conducted here. Two large lecture halls supplied with charts, blackboards, and a projection lantern, admirably meet the need for lectures, quizzes and demonstrations.

### LABORATORIES

In 1910, a complete reorganization of the various laboratory departments was instituted, and the laboratories were newly equipped, and the facilities were much improved. The laboratories of chemistry, physiology, histology, bacteriology, pathology, pharmacology and anatomy possess all the modern apparatus for practical instruction in those subjects. The apparatus will be further augmented for this session. Under each department will be found a more detailed description of its facilities.

### CLINICAL ADVANTAGES

The college has exceptional clinical advantages because of its intimate relation to large general hospitals, in all of which are parts of the work of the clinical years.

Good Samaritan Hospital is located just opposite the college. It accommodates 250 patients and has recently built a new operating room with a convenient amphitheatre.

St. Vincent's Hospital is within five minutes' walk of the college. It is modern in every respect and contains 500 beds and six excellent operating rooms, one of which has a large amphitheatre, specially constructed to afford facilities for teaching surgery and medicine in this college.

Multnomah County Hospital is a charitable institution readily accessible by street car, and affords much material for practical clinical work. This institution will soon be enlarged to comply more thoroughly with the needs of Multnomah County.

Members of the Faculty conduct clinics daily in these hospitals, and the student is brought into actual contact with methods of diagnosis and treatment.

Portland's geographical position is such that its hospitals receive many patients from a large surrounding territory, resulting in great diversity of diseases.

### DISPENSARIES

The Portland Free Dispensary is located at Fourth and Burnside Streets in a district which abounds in the types for which a dispensary is necessary. It is conducted by the college in affiliation with the People's Institute, the Men's Resort, and the Visiting Nurses' Association. The Jewish Neighborhood House Dispensary has been recently completed, and is situated opposite Multnomah Hospital at Second and Hooker Streets. The chairs of medicine, surgery, gynecology, ophthalmology, otology, laryngology, pediatrics and genito-urinary diseases hold clinics in these dispensaries, and the junior and senior classes are assigned to definite hours in actual clinical work with the patient.

### LIBRARY

The Medical College library was established by gift of the medical libraries of the late Drs. R. B. Wilson and Rodney Glisan, two distinguished pioneer physicians of this State. It has a room in the college building. It has been recently added to, and will be further enlarged from time to time. Students may have access to books and periodicals subject to the library rules. Students may have access also to the library of the Portland City and County Medical Society.

### REQUIREMENTS FOR ADMISSION

These comprise as a minimum (a) the successful completion of a four-year high school or academic course, or the equivalent thereof; also (b) one year of successfully completed college work in an institution acceptable to the University of Oregon. This latter work must have included one year each of chemistry, physics, biology and a modern foreign language; also (c) a certificate of good moral standing signed by two reputable physicians.

#### A. HIGH SCHOOL WORK REQUIRED

The high school work imperatively demanded of each matriculant comprises evidence of the completion of a four-year course in an accredited high school or the equivalent thereof, as demanded for unconditional admission to the University College of Literature, Science and the Arts at Eugene.

Fifteen units in all are required, nine of which are in required subjects, and the remaining six of which may be selected from the list of elective subjects given below.

By a unit of work, is meant a subject running one year of at least 36 weeks, five times a week, with each period not less than 40 minutes in length.

## REQUIRED SUBJECTS

The required subjects with the number of units in each are as follows:

English .....	3 units	History .....	1 unit
Algebra .....	1 unit	Physics .....	1 unit
Plane Geometry .....	1 unit		
One Foreign Language.....	2 units	Total .....	9 units

## ELECTIVE SUBJECTS

The balance of the 15 units may be selected from the following:

English .....	1 unit	Higher Arithmetic.....	$\frac{1}{2}$ unit
Latin .....	1 or 2 units	Solid Geometry .....	$\frac{1}{2}$ unit
German .....	1 or 2 units	Higher Algebra .....	$\frac{1}{2}$ unit
Botany .....	$\frac{1}{2}$ or 1 unit	Trigonometry .....	$\frac{1}{2}$ unit
Chemistry .....	1 unit	Civil Government .....	$\frac{1}{2}$ unit
History .....	$\frac{1}{2}$ unit	Political Economy .....	$\frac{1}{2}$ unit
Zoology .....	$\frac{1}{2}$ unit	Bookkeeping .....	$\frac{1}{2}$ unit
Astronomy .....	$\frac{1}{2}$ unit	Mechanical Drawing .....	$\frac{1}{2}$ unit
Geology .....	$\frac{1}{2}$ unit	Freehand Drawing .....	$\frac{1}{2}$ unit
Physical Geography $\frac{1}{2}$ or 1	unit	Manual Training .....	$\frac{1}{2}$ unit
Physiology .....	$\frac{1}{2}$ unit		

## B. COLLEGE WORK REQUIRED

One year of college work in a college or university accredited by the University of Oregon must have been completed, and this must include at least eight semester hours in didactic and laboratory courses in Advanced Physics, General Chemistry, General Biology, and advanced German or French, including certified laboratory note books.

The following schedule shows the minimum number of hours acceptable in the subjects of the preliminary year:

Subject	Lectures or recitations per week	Laboratory periods per week	Total hours per semester	Total semester hours per year
Advanced Physics.....	2 or 3	2 or 1	4	8
General Chemistry .....	2 or 3	2 or 1	4	8
General Biology.....	2 or 3	2 or 1	4	8
Advanced German or French .....	4 or 3		4 or 3	8 or 6
Totals .....	10 or 12	6 or 3	16 or 15	32 or 30

Each laboratory period must extend over at least two hours. Beginning January 1, 1916, two years of college work will be required as prerequisite for entrance, including the above subjects and eight semester hours of Organic Chemistry.

### ADMISSION BY EXAMINATION

The above credits are accepted upon credentials from proper authority without examination. Students from schools not recognized by the University of Oregon must pass an examination in the required branches. Such examination will be conducted by a member of the faculty of the University College of Literature, Science and the Arts. After such examination the student must submit credentials from the examiner certifying to his successful completion thereof. The next examination will be held at the Medical College on September 29, at 9 a. m.

### ADMISSION TO ADVANCED STANDING

No student will be admitted to advanced standing who has not complied fully with the requirements for admission to this college. Credits will be given to students from other recognized medical institutions, the requirements for admission and standard of work of which are equivalent to those of this college; upon presentation of credentials from proper authority. Such student must submit a certificate of honorable discharge from his previous college as well as evidence of the exact amount of work he has successfully completed there, both of which are subject to the approval of the heads of the department involved and of the Dean.

### PRE-MEDICAL COURSE

High school students are advised to study the required entrance subjects with at least two years of German, and sufficient mathematics for the required college physics.

For the required year of college biology, chemistry, physics, and modern language, the pre-medical student is advised to complete the following courses in the University College of Literature, Science and the Arts at Eugene, or equivalent courses elsewhere: chemistry 1, physics 4 and 3, zoology 1 and 2, and German 10. For further pre-medical study the student is advised to choose work in chemistry, drawing, English, German, history, psychology, sociology and zoology. The subjects of Human Anatomy, Human Histology, Human Embryology, Physiological Chemistry, and Human Physiology are best studied in a medical school. Other courses in Zoology and Chemistry are advised.

Inasmuch as four years of residence in a recognized medical college is required for the degree of Doctor of Medicine, no time credit is granted for work done at Eugene, or in other non-medical schools, but subject credit may be given for satisfactory work if approved by the Dean, and the head of the Medical College department concerned.

## REQUIREMENTS FOR GRADUATION

The following are the requirements of the candidate for the degree of Doctor of Medicine:

He must be at least 21 years of age, and of good moral character.

He must have finished four full medical courses of at least eight months each, no two of which shall have been taken within the same 12 months, and the last of which must have been taken in this college.

He must have paid all fees due the college.

He must have secured satisfactory standing in all examinations and he must be present at commencement exercises and receive his diploma in person unless excused for good reason by the faculty.

## THE CURRICULUM

The curriculum consists of four annual sessions of eight and one-half months (two semesters) each. The first two years are devoted chiefly to the fundamental branches: anatomy, both gross and minute, physiology, physiological chemistry, neurology, embryology, pathology, pharmacology, bacteriology, materia medica and toxicology.

The last two years embrace the clinical branches: medicine, surgery, obstetrics, gynecology, therapeutics, clinical pathology, nervous and mental diseases, genito-urinary diseases, and diseases of the eye, ear, nose and throat.

The student approaches the practical subjects of the third year, after completion of those subjects preparatory to practical medicine. The principles of medicine, surgery and obstetrics are taken up in recitations, in sections at the dispensary, and in the clinics. Clinics, lectures, recitations and demonstrations are conducted in medicine, surgery, nervous diseases, gynecology, eye, ear, nose and throat, genito-urinary diseases, dermatology and pediatrics.

Classes are sufficiently small to allow each student the advantages of much personal instruction.

## GENERAL INFORMATION

### ROUTINE OF ENTRANCE

All applications should be addressed to the Dean, Medical Department, University of Oregon, Twenty-third and Lovejoy Streets, Portland, Oregon.

Students contemplating entrance to this college should apply for blank admission forms, which must be carefully filled out and returned to the Dean's office, together with credentials of work in previous schools.

### MATRICULATION AND REGISTRATION

The new student is required to present, on matriculation day, (a) his admission credits, if not previously presented; (b) his letter of honorable dismissal from previous college; (c) a certificate of good moral character; and (d) must pay the matriculation fee and fees and deposits for the ensuing term.

Any of the above may be done by correspondence or otherwise, but the student must present himself on registration day for approval of credentials and assignment to classes.

Application for admission will not be considered later than October 7, and an extra charge of Five Dollars (\$5.00) will be made for registration later than September 30.

Matriculation and registration will be conducted at the office of the Assistant Dean in the college building on September 29 and 30, from 9 to 12 a. m.

The Dean shall have the right to reject any applicant for admission.

### FEES AND DEPOSITS

**Matriculation fee**—The matriculation fee is Five Dollars (\$5.00), and is required of every student entering the college and is payable but once.

**Tuition**—The tuition for each year is One Hundred and Fifty Dollars (\$150.00) and is payable at the beginning of the school term. Those preferring to pay tuition in two payments may do so by paying Eighty Dollars (\$80.00) at the beginning of the first semester and Seventy-five Dollars (\$75.00) at the beginning of the second. This fee includes the laboratory and special fees formerly required in certain courses in addition to the regular tuition fee.

**Breakage Deposit**—A deposit of Ten Dollars (\$10.00) is required of each student at the beginning of each year for general breakage. The cost of damage done by an individual to college property will be deducted from his deposit; and, in case the identity of the one responsible cannot be established, a pro rata charge will be made against the entire class of which he is a member. The remainder of this deposit will be returned at the end of each school year.

All fees are payable in advance at the time of matriculation. Fees are not returnable at any time, except by special action of the faculty.

The faculty reserves the right to make changes in curriculum, fees or any other matter at any time.

If a special examination is granted, a fee of \$5.00 must be paid the Dean.

### SPECIAL STUDENTS

Students who register for special work, and who are not candidates for the degree of Doctor of Medicine, will be charged tuition according to the amount of work undertaken and the nature of the courses.

### POST GRADUATES

Graduates of this or other colleges who are visiting the city for a brief time are cordially invited to attend the various clinics and classes, but those intending to take any definite course must arrange with the Dean.

### BOARD AND LODGINGS

Good rooms with all modern conveniences can be obtained in the vicinity of the college at from \$8.00 to \$15.00 a month. Board may be had at from \$12.00 to \$18.00 a month; and room and board together may be obtained at from \$20.00 to \$30.00 a month.

### BOOKS AND INSTRUMENTS

The average annual cost of books, instruments and other supplies varies from \$15.00 to \$25.00. The instructors should be consulted before buying text books.

### LOCKERS AND MICROSCOPES

Coat room and laboratory lockers will be assigned and a deposit of fifty cents must be made when key for same is received. Microscopes are rented at a cost of \$2.50 per semester.

## RESUME OF WORK

The following is an outline of the work. The curriculum is largely prescribed and this resume includes only that work required of every student. The hours have been figured on a basis of sixteen weeks to a semester.

## FIRST YEAR

	Hours per week		Hours per Semester	
	Lab'tory	Lecture	Lab'tory	Lecture
FIRST SEMESTER:				
<i>Chemistry</i> —				
(Organic) .....	9	3	72	24
Physiological Chemistry .....	9	3	72	24
<i>Anatomy</i> —				
Gross .....	9	3	144	48
Histology .....	4	2	64	32
Neurology .....	3	1	48	16
SECOND SEMESTER:				
<i>Anatomy</i> —				
Gross .....	9	3	144	48
Embryology .....	4	2	64	32
Physiological Chemistry .....	9	2	144	32
Physiology .....	3	4	48	64
			800	320
Total hours.....				1,120

## SECOND YEAR

	Hours per week		Hours per Semester	
	Lab'tory	Lecture	Lab'tory	Lecture
FIRST SEMESTER:				
Physiology .....	3	4	48	64

## DEPARTMENT OF MEDICINE

## I. ANATOMY

Professor DILLEHUNT

Associate Professor CREADICK

Dr. JESSOP

Dr. BISAILLON

Dr. MENZIES

The Department of Anatomy provides for instruction in Gross Human Anatomy, Histology, and Embryology. For the former there is a large, light, well-ventilated dissecting room, supplied with stone-top tables. The Department possesses a complete set of Bocks' anatomical models; an excellent articulated skeleton with areas of muscular attachments outlined on all bones; several complete disarticulated skeletons and charts, to all of which the student has access. Dissecting material is abundant.

The Histology Laboratory is thoroughly equipped, each student having a private locker containing apparatus for fixing, cutting and staining specimens; a good microscope, and all other necessary material for use in minute anatomy.

Embryology is taught chiefly from a study of the development of lower animals, but the department is equipped with eight of Professor Ziegler's wax models of the human embryo, and with several preserved specimens of the human embryo and fetus.

## HUMAN DISSECTION, NEUROLOGY AND OSTEOLOGY

The work in human dissection is covered during the first year and the first semester of the second year. The time formerly allotted to laboratory work in osteology and neurology is now given to dissection and the anatomy of the bones and joints, the brain and the spinal cord is studied in the progress of the dissection of the part involved.

## 1. DISSECTION OF THE ARM AND THORAX

The student makes a complete dissection of all structures, aided by demonstrations, text-books, atlases, and models. Each student is permitted the use of the disarticulated bones of the part which he is dissecting. The work is carried on under supervision of members of the department and is supplemented by frequent quiz. Dissection period 9 hrs., quiz 3 hrs. a week, 1st semester, 1st year. Professor DILLEHUNT, Dr. BISAILLON, Dr. JESSOP, Dr. MENZIES.

*Six credit hours.*

## 2. DISSECTION OF THE LEG AND ABDOMEN

Dissection period 9 hrs., quiz 3 hrs. a week, 2nd semester, 1st year, including Splanchnology. *Six credit hours.*

## 3. DISSECTION OF THE HEAD AND NECK, BRAIN AND SPINAL CORD

Dissection period 6 hrs., quiz 2 hrs. a week, 1st semester, 2nd year. *Four credit hours.*

## 4. HUMAN HISTOLOGY

A complete course in minute human anatomy, beginning with a study of the cell and progressing through the structure of elementary tissues to the anatomy of the various organs and viscera, including a microscopic study of the anatomy of the human brain, spinal cord, peripheral nerves and their endings, and the organs of special sense. Lecture 3 hrs., laboratory 6 hrs. a week, 1st semester, 1st year. Dr. CREADICK. *Five credit hours.*

## 5. HUMAN EMBRYOLOGY

A study of the development of the human embryo from conception to its separation from the maternal organism. Laboratory work is conducted in the study of sections of chick and pig embryos for the earlier stages; and wax models and preserved specimens of human embryos are used in the lectures and demonstrations. Lecture 2 hrs., laboratory 4 hrs. a week, 2nd semester, 1st year. Dr. CREADICK. *Three credit hours.*

## 6. TOPOGRAPHICAL ANATOMY

A course of lectures and demonstrations in surface anatomy, position of viscera, surgically important anatomy, etc. Lecture and quiz 2 hrs. a week, 1st semester, 3rd year. Professor DILLEHUNT, Dr. W. G. SCOTT. *Two credit hours.*

# II. PHYSIOLOGY

Professor MACLAREN

Dr. MADIGAN

The Department of Physiology has two student laboratories and an animal room. The Human Physiology laboratory, on the third floor of the College Building, is arranged for animal experiments and contains one of the Department Libraries.

The modern equipment includes several complete sets of the Harvard physiology apparatus with other mechanisms, balances, glassware, reagents, thermometers and repair tools. There is a complete equipment for graphic records with different kymographs and an electric clock.

For mammalian experiments there are tables, animal holders, instruments and anaesthetic apparatus. For experiments on man and the study of the senses there are sets of the most approved physical, microscopical, and clinical mechanisms.

The Chemical Physiology laboratory, on the second floor of the College Building, is provided with the purest chemicals, and complete testing outfits, including nitrogen and ammonia apparatus, an electric centrifuge, a polarimeter and a spectroscope. There is a good biochemical library.

During the first year the chemical phases of physiology are emphasized, including organic and physiological chemistry, with the physiology of digestion, metabolism and excretion. During the second year the physical and psychological phases are included in a complete study of human physiology. In the third and fourth years the applications of physiology to medicine and surgery and experimental medicine are considered.

The texts in use are the most recent editions of: Cannon's Laboratory Course in Physiology, Connolly's Laboratory Directions in Organic Chemistry, Hawk's Practical Physiological Chemistry, and Howell's Text-Book of Physiology.

### 1. NUTRITIONAL PHYSIOLOGY

A study of secretion, foods, digestion and nutrition. Lectures 2 hrs., laboratory 9 hrs. a week, 1st semester, 1st year. Dr. MADIGAN. *Five credit hours.*

### 2. CHEMICAL PHYSIOLOGY

The study of blood, lymph, milk, metabolism and excretion. Lectures 2 hrs., laboratory 9 hrs. a week, 2nd semester, 1st year. Dr. MADIGAN. *Five credit hours.*

### 3. GENERAL PHYSIOLOGY

Advanced studies of muscle, nerve, body fluids and defences, reproduction and growth. Lectures 4 hrs., laboratory 3 hrs. a week, 2nd semester, 1st year. Professor MACLAREN. *Five credit hours.*

#### 4. HUMAN PHYSIOLOGY

Studies of the circulation, respiration, brain, senses and mind. Lectures 4 hrs., laboratory 3 hrs. a week, 1st semester, 2nd year. Professor MACLAREN. *Five credit hours.*

#### 5, 6. CLINICAL PHYSIOLOGY

Medical physiology, surgical physiology and the use of apparatus of precision for the diagnosis of disease. Laboratory Diagnosis for 3rd year students. Hours to be arranged. Professor MACLAREN, Dr. MADIGAN.

*Five credit hours, both semesters.*

#### 7, 8. RESEARCH PHYSIOLOGY

The application of the newer researches to medicine and surgery. Laboratory practice in experimental medicine. Elective for 4th year students. Hours to be arranged. Professor MACLAREN.

*Five credit hours, both semesters.*

### III. PATHOLOGY AND BACTERIOLOGY

Professor BENSON

Dr. ELSE

Associate Professor NORTON

Dr. SMITH

The Department of Pathology has the necessary facilities for the study of gross and microscopic pathology. The pathological laboratories of the leading hospitals of the city are under the direct supervision of the head of this department, and the surgical clinics afford a large amount of fresh pathological material for demonstration. The museum is being constantly augmented from these sources and also from the autopsies which are performed as often as the occasion presents itself. Each student is required to attend a number of autopsies during the year and to write a detailed report on the findings.

A complete set of sections for microscopic study is furnished each student, which he is required to study fully, describe, and draw in colors. The student is also taught the technique of preparing sections of tissue, by the celloidin, paraffin and frozen section methods. The school is fortunate in having an ample equipment for such work.

Besides the instruction at the college, consisting of lectures, demonstrations, and laboratory study, demonstrations are given at St. Vincent's Hospital by a member of this department in conjunction with the surgical clinics.

The bacteriology laboratory is thoroughly equipped for the study of the micro-organisms, of the principles of immunity, and of modern methods of hygiene and sanitation. It is provided with incubators, autoclaves, dry sterilizers, and all necessary apparatus, and a supply of the more important pathogenic organisms is kept on hand. Provision is made for animal inoculations, and the student is given an opportunity to isolate, culture, and study the various organisms.

### 1. PATHOLOGICAL HISTOLOGY AND GENERAL PATHOLOGY

A laboratory course in general pathology, comprising the study of prepared slides supplemented by experiments; the study of fresh and museum specimens, lectures and recitations. Lectures 3 hrs., laboratory 4 hrs. a week, 1st semester, 2nd year. Professor BENSON. *Five credit hours.*

### 2. THE DIAGNOSIS AND HISTOLOGY OF TUMORS

A systematic study of tumors, dealing with the microscopic diagnosis and gross characteristics. Lecture 3 hrs., laboratory 6 hrs. a week, 2nd semester, 2nd year. Professor BENSON. *Five credit hours.*

### 3. SPECIAL PATHOLOGICAL ANATOMY AND HISTOLOGY

In this course the pathological processes are considered from the standpoint of system of organs, with special reference to their clinical features. Lectures 2 hrs., laboratories 2 hrs. a week, 1st semester, 3rd year. Dr. ELSE. *Three credit hours.*

### 4. SPECIAL PATHOLOGICAL ANATOMY AND HISTOLOGY

Continuation of Course 3. Lectures 2 hrs., laboratory 2 hrs. a week, 2nd semester, 3rd year. Dr. ELSE. *Two credit hours.*

### 5. SURGICAL PATHOLOGY

This course, consisting of demonstrations of gross specimens, will be given in the pathological laboratory of St. Vincent's Hospital, and will be supplemented by autopsies.

### 6. BACTERIOLOGY

This is a practical laboratory course in which the students become familiar with the preparation of culture media, the principles of sterilization and disinfection, the methods of cultivating,

staining, and studying bacteria, the biological examination of air, water, and soil, and the important species of pathogenic micro-organisms. The hygienic as well as the pathological relations of bacteriology are considered. Lectures 2 hrs., laboratory 9 hrs, 2nd semester, 2nd year. Associate Professor NORTON.

*Five credit hours.*

## 7. RESEARCH IN PATHOLOGY AND BACTERIOLOGY

Open to specially qualified students. Hours to be arranged. Professor BENSON, Dr. ELSE, Associate Professor NORTON.

## 8. SERUM DIAGNOSIS

For seniors. Hours to be arranged. Professor BENSON or Associate Professor NORTON.

# IV. PHYSIOLOGICAL CHEMISTRY

Professor HASKINS

Instruction in this branch is given by lectures, demonstrations and laboratory work.

(a) A short course of eight weeks of organic chemistry will be given.

(b) A short course on the chemistry of various substances such as proteids in order that the student may intelligently execute the work that follows.

(c) A course of qualitative analysis in which some examination is made of nearly every tissue and fluid in the body; blood, liver, milk, muscle, gastric juice, adipose tissue, bone and bile receive special attention, and whenever material is available a study is made of the pathological fluids and concretions.

(d) A study of the physiological chemical processes such as the action of enzymes, salivary, pancreatic and gastric digestion.

(e) Quantitative analysis. Determination of normal and pathological constituents of urine; analysis of milk, gastric juice, air, water, and foods.

An attempt is made here to familiarize the student with the chemical technique required for metabolism experiments.

*Five credit hours.*

## V. ORGANIC CHEMISTRY

Professor BINSWANGER

Lectures on hydro-carbons, alcohols, aldehydes, ketones, fats, coal-tar compounds, carbo-hydrates, amines, amides, glucosides and alkaloids. 3 hrs. a week, 1st semester, 1st year. Professor BINSWANGER.

*Three credit hours.*

## VI. PHARMACOLOGY, TOXICOLOGY AND PRACTICAL THERAPEUTICS

Professor MYERS

Dr. FENTON

The laboratory for work in pharmacology and materia medica was newly equipped throughout in 1911. Modern apparatus and preparations of all potent drugs are on hand for laboratory work on animals. A complete collection of crude drugs is kept in the laboratory and there are ample facilities for the use of students in compounding prescriptions.

### 1. MATERIA MEDICA

This course embraces a series of lectures, quizzes and laboratory periods, treating of the chemistry and physical properties of medicinal drugs, and medical pharmacy. The student is given thorough work in writing and compounding prescriptions. Lecture 2 hrs., laboratory 2 hrs. a week, 2nd semester, 2nd year. Professor MYERS.

*Three credit hours.*

### 2. PHARMACOLOGY

A thorough lecture and laboratory course in the physiological action of various drugs. The class is divided into small groups, each of which performs experiments illustrating the influence exerted by various drugs upon the muscular, nervous, respiratory, circulatory, digestive and excretory systems. This work is supplemented by lectures and quizzes, and laboratory work in toxicology. Lecture 4 hrs., laboratory 6 hrs. a week, 2nd semester, 2nd year. Professor MYERS.

*Three credit hours.*

### 3. THERAPEUTICS

A lecture and recitation course in the practical application of medicinal drugs to pathological conditions, including a review of prescription writing. 2 hrs. a week, 1st semester, 3rd year. Dr. FENTON.

*Two credit hours.*

## VII. MEDICINE

Professor BELL    Professor YENNEY    Assistant Professor GILBERT  
Assistant Professor WHITE    Assistant Professor RAY MATSON  
Assistant Professor RALPH MATSON    Dr. KOEHLER  
Dr. SELLING    Dr. KNOX    Dr. BOOTH

## INTERNAL MEDICINE

Medicine is taught at first didactically by recitation from assignments, by practical work in physical diagnosis, and clinical laboratory work. Later the student is brought more closely in touch with the patient by clinics in hospitals and work in the dispensary.

## 1. MEDICINE RECITATION

A course of quizzes in the principles of medicine from definite assignments in a one-volume medicine. 3 hrs. a week, 1st semester, 3rd year. Dr. SELLING. *Three credit hours.*

## 2. MEDICINE RECITATION

A continuation of Course 1. 3 hrs. a week, 2nd semester, 3rd year. Dr. KNOX. *Three credit hours.*

## 3. PHYSICAL DIAGNOSIS

A lecture and practical course in methods of physical examination with demonstrations and practice in percussion, auscultation, etc. 2 hrs. a week, 2nd semester, 2nd year. Dr. BOOTH. *Two credit hours.*

## 3a. PHYSICAL DIAGNOSIS

A continuation of Course 3 with work in pathological conditions. 2 hrs. a week, 1st semester, 3rd year. Dr. BOOTH. *Two credit hours.*

## 3b. PHYSICAL DIAGNOSIS

This course includes Inspection, Palpation, Percussion, Auscultation, Prognosis and Treatment.

**PALPATION:** Pulse—normal pulse rate, arrhythmias, valvular disease, malarial disease, pericarditis. Palpation in aneurism and pericardial effusion.

**PERCUSSION:** In lean and obese patients—demonstrations of the different methods of percussion. Topographic percussion of the lungs. Demonstration of the different percussion sounds, their

meaning in health and disease of the lungs. Vesicular resonance, dullness, dull-flat, tympanitic, crack-pot and amphoric.

**LUNGS:** Variety of respiratory murmurs, vesicular, broncho-vesicular, bronchial, amphoric, cog-wheel, emphysematous and asthmatic respiration. Study of early tuberculosis from the standpoint of anatomical division of the lungs. Relative value of the different physical signs in the diagnosis of incipient pulmonary tuberculosis.

Clinic provides abundant material for the study of tuberculosis and its modern methods of treatment, including tuberculosis therapy. Dr. RALPH MATSON, Dr. RAY MATSON. *Two credit hours.*

#### 4. LABORATORY DIAGNOSIS

A practical course in the laboratory in which the student is taught the chemical, microscopical, and bacteriologic examination of blood, urine, sputum, gastric contents, feces, secretions, exudates, etc., and their pathologic and clinical significance. 4 hrs. a week, both semesters, 3rd yr. Professor HASKINS.

*Two credit hours.*

#### 5. MEDICINE CLINIC

A clinic devoted chiefly to instruction in the essentials of theoretical and practical medicine. 1 hr. a week, entire 4th year. 1-2, Wed., St. Vincent's Hospital. Professor BELL.

*One credit hour.*

#### 6. MEDICINE CLINIC

A clinic in internal medicine confined to the Senior year. 2 hrs. a week, entire 4th year. St. Vincent's Hospital. Assistant Professor GILBERT.

*Two credit hours.*

#### 7. MEDICINE CLINIC

A clinic paying especial attention to pathology and diagnosis. 4 hrs. a week, entire 4th year. Multnomah Hospital. Professor YENNEY.

*Four credit hours.*

#### 8. MEDICINE LECTURE

A clinic or lecture in medicine with special stress on diseases of the stomach and intestines. 2 hrs. a week, 3rd year. Dr. KOEHLER.

*One credit hour.*

#### 9. LECTURE AND CONFERENCE IN MEDICINE

A lecture course with frequent quizzes on the more important and more prevalent diseases. 3 hrs. a week, 2nd semester, 4th year. Professor BELL.

*Three credit hours.*

## 10. HYGIENE AND SANITATION

A course treating of practical hygiene with instruction in municipal sanitation, food control and garbage destruction, and the relation of these to public health. 2 hrs. a week, 2nd semester, 3rd year. Assistant Professor WHITE. *Two credit hours.*

## 11. DIETETICS

A course involving the values of foods and the methods of variance of foods in certain diseases. 1 hr. a week, 1st semester, 3rd year. Dr. TAYLOR. *One credit hour.*

## 12. RADIOLOGY AND ACTINOTHERAPY

A course in electricity as applied to medicine and surgery, including the use of the X-Ray in diagnosis and therapy. 2 hrs. a week, 2nd semester, 4th year. Dr. WALKER. *Two credit hours.*

## 13. CLINIC

Clinic for 3rd year students at St. Vincent's Hospital. Dr. BINSWANGER.

## 14. DISPENSARY

A course in the dispensary in which small groups are assigned to the medical side, and are given practice in writing histories, physical diagnosis, laboratory work, clinical observation and treatment. 4 hrs. a week, 1st semester, 3rd year; 4 hrs. 2nd semester, 3rd year; 8 hrs. a week, 1st semester and 4 hrs. a week, 2nd semester, 4th year. Dr. KOEHLER, Dr. SHEA, Dr. BOOTH and others.

*Two credit hours.*

## VIII. NERVOUS AND MENTAL DISEASES AND MEDICAL JURISPRUDENCE

Professor JOSEPHI

Assistant Professor HOUSE

The work of this department is confined to the third and fourth years, and is conducted didactically and clinically as well as by the work in the dispensary.

## 1. INTRODUCTION TO NERVOUS DISEASES

A course dealing with the applied anatomy, and physiology of the nervous system, and methods of diagnosis in nervous diseases. 1 hr. a week, 1st semester, 3rd year. Assistant Professor HOUSE.

*One credit hour.*

## 1a. NERVOUS DISEASES

A lecture and conference course dealing with the pathology, symptomatology, diagnosis and treatment of the common nervous diseases. 2 hrs. a week, 2nd semester, 3rd year. Professor JOSEPHI. *Two credit hours.*

## 2. DISEASES OF THE MIND, AND NERVOUS SYSTEM

A more advanced course in the pathological conditions of the nervous system and in insanity. 2 hrs. a week, 1st semester, 4th year. Professor JOSEPHI. *Two credit hours.*

## 3. CLINIC

A clinic in nervous and mental diseases. 1 hr. a week, entire 4th year. Multnomah Hospital. Assistant Professor HOUSE. *One-half credit hour.*

## 4. MEDICAL JURISPRUDENCE AND MEDICAL ETHICS

A course of lectures and recitations in forensic medicine and medical ethics and economics. 1 hr. a week, 2nd semester, 4th year. Assistant Professor HOUSE. *One credit hour.*

## IX. PEDIATRICS

Professor LABBE

Dr. BILDERBACK

Dr. ROSENFELD

Instruction in this department is conducted by means of lectures, conferences and clinical work at the dispensary.

## 1. ANATOMY, PHYSIOLOGY, AND HYGIENE OF INFANCY AND CHILDHOOD

Lectures and quizzes are conducted in the anatomy, physiology, and hygiene of infancy and childhood, and principles of infant feeding, and in the disorders of nutrition in infancy. 2 hrs. a week, 1st semester, 4th year. Dr. BILDERBACK. *Two credit hours.*

## 2. DISEASES OF INFANCY AND CHILDHOOD

A conference and lecture course in diseases of infancy and childhood. 3 hrs. a week, 2nd semester, 4th year. Professor LABBE. *Three credit hours.*

## 3. DISPENSARY WORK IN PEDIATRICS

This branch is treated as a part of the medicine dispensary. Professor LABBE, Dr. BILDERBACK, Dr. ROSENFELD.

## X. DERMATOLOGY AND SYPHILOLOGY

Assistant Professor KING

Dr. PAYNE

Dr. PARKER

Lectures, recitations, demonstrations and clinical work will be conducted in dermatology and syphilis in the clinical years.

### 1. INTRODUCTORY DERMATOLOGY

A lecture and recitation course in the fundamentals of dermatology and in the more prevalent diseases of the skin. Illustrative cases will be exhibited from time to time. 2 hrs. a week, 2nd semester, 3rd year. Assistant Professor KING.

*Two credit hours.*

### 2. DERMATOLOGY AND SYPHILIS

A continuation of Course 1. 1 hr. a week, 1st semester, 4th year. Assistant Professor KING.

*One credit hour.*

### 3. CLINIC IN VENEREAL DISEASES

A clinic at Multnomah Hospital dealing chiefly with syphilis. 1 hr. a week, entire 4th year. Assistant Professor WHITESIDE.

*One-half credit hour.*

## XI. SURGERY

Professor MACKENZIE

Professor WILSON

Associate Professor ZAN

Assistant Professor BAIRD

Dr. ZIEGLER

Dr. PEASE

Dr. AKIN

Surgery is approached didactically in lectures, and in recitations in the principles of surgery, from text assignments throughout the Junior year. Clinical work is conducted in the nearby hospitals in the third and fourth years. Minor surgery is taught clinically and at the dispensary, and operative surgery is presented in the fourth year, during which each student is required to do actual surgical work on the cadaver. Each Senior student is assigned in rotation to take part as assistant in surgical operations and as anaesthetist under proper supervision, in the clinic.

### 1. SURGERY RECITATION

A course of quizzes in the principles of surgery and surgical pathology from definite assignments in a one-volume text-book of surgery. 2 hrs. a week, 1st semester, 3rd year. Associate Professor ZAN.

*Two credit hours.*

## 2. SURGERY RECITATION

A continuation of Course 1. 2 hrs. a week, 2nd semester, 3rd year. Associate Professor ZAN. *Two credit hours.*

## 3. SURGICAL CLINIC

Minor surgery is taught clinically by demonstrations of technique in elementary surgery, bandaging, care of the injured, etc. 1 hr. a week, 1st semester, 3rd year. St. Vincent's Hospital. Dr. ZIEGLER. *One-half credit hour.*

### 3a. SURGICAL CLINIC

A clinic in general surgery. 1 hr. a week, 1st semester, 3rd year. Dr. HAMILTON. *One-half credit hour.*

## 4. SURGICAL CLINIC

The attempt is made in this course to teach surgery in the most practical manner and during the past eight years a method of instruction has been followed which has been commended in many quarters for its thoroughness.

The classes are limited at the present time to twenty-five students. Four students, who have been previously strictly trained in methods of asepsis, enter the amphitheater with the operating surgeon; two of them are assigned to assist the operator and actually take part in the operation and learn practical lessons in hemostasis, ligation of vessels, and general technique; the other two students are stationed at the head under an expert anesthetist who studies anesthesia with them and instructs them in all methods of administration. While one student is engaged in giving the anesthetic under instruction, the other is being taught how to make observations with the sphygmomanometer studying the re-action of the patient to the various operative procedures.

That part of the period which is usually consumed in preparation for operation and the administration of the anesthetic; namely, twenty or twenty-five minutes, is devoted to the study of pathology from specimens collected at previous operations under a special detail from the department of pathology.

Six hrs. a week entire 4th year. St. Vincent's Hospital. Professor MACKENZIE. *Six credit hours.*

## 5. SURGICAL CLINIC

A clinic in general surgery, dealing chiefly with fractures and other lesions of bones. 2 hrs. a week, 1st semester, 4th year. Professor WILSON. *Two credit hours.*

## 6. SURGICAL CLINIC

A clinic in general surgery with especial attention to surgical pathology. 1 hr. a week, entire 4th year. Multnomah Hospital. Assistant Professor BAIRD. *One-half credit hour.*

## 7. COMMON SURGICAL DISEASES.

A lecture and conference course involving a discussion of the pathology, diagnosis, and treatment of the more common surgical diseases. 2 hrs. a week, 2nd semester, 4th year. Assistant Professor BAIRD. *Two credit hours.*

## 8. ORTHOPEDIC SURGERY

A lecture and clinical course in orthopedic surgery. 2 hrs. a week, 2nd semester, 4th year. Dr. AKIN. *Two credit hours.*

## 9. OPERATIVE SURGERY

A course in surgery on the cadaver presented by lecture, demonstration and individual work by each student on the cadaver. 3 hrs. a week, 2nd semester, 4th year. Dr. PEASE, Dr. ROCKEY. *Three credit hours.*

## 10. SURGICAL DISPENSARY

A practical course in surgery, giving the student opportunity to do individual work in minor surgery at the dispensary. 3 hrs. a week, 2nd semester, 3rd year; 3 hrs. a week, 1st semester, 4th year. Assistant Professor BAIRD, Dr. MCCUSKER, Assistant Professor WHITESIDE, Dr. SHEA and others. *One credit hour.*

# XII. OBSTETRICS

Professor STORY

Assistant Professor ELLIS

Assistant Professor MCCUSKER

Dr. SCOTT

Obstetrics is taught in the third and fourth years in lecture, recitation, and practical courses. Normal and pathological cases are demonstrated in hospital clinics and the out-patient service. Practical work is done by each student on the manikin and in the conduct of labor, under proper supervision in out-patient work. The student must be in attendance on at least six cases before graduation.

### 1. INTRODUCTORY OBSTETRICS

A lecture and recitation course in the anatomy and physiology of pregnancy, the diagnosis and management of normal pregnancy, and the clinical phenomena of normal labor. 3 hrs. a week, 1st semester, 3rd year. Professor STORY or Assistant Professor McCUSKER.  
*Three credit hours.*

### 2. ADVANCED OBSTETRICS

A lecture, conference and practical course in the conduct of labor and the diagnosis and treatment of pathologic conditions of pregnancy, labor and the puerperium. 3 hrs. a week, 2nd semester, 3rd year. Wed., Fri. Professor STORY or Assistant Professor McCUSKER.  
*Three credit hours.*

### 3. PRACTICAL OBSTETRICS

A conference, and practical course in the conduct of labor and management of abnormal presentations and other complications of labor. Each student is required to do practical work with the manikin. 1 hr. a week, 1st semester, 4th year. Dr. ELLIS.  
*One credit hour.*

### 4. OBSTETRICS

(a) Obstetrical measurements, diagnosis of foetal positions and clinical observations during pregnancy. Students will be taken in sections and hours arranged for Seniors. Professor STORY.

(b) Cases of confinement will be demonstrated and Senior students will be allowed to assist in the conduct of labor in the maternity departments of the various hospitals and in the outpatient service. Hours to be arranged. Entire 4th year. Professor STORY, Assistant Professor McCUSKER, Dr. SCOTT.

## XIII. GYNECOLOGY

Professor TUCKER

Assistant Professor WIGHT

Gynecology is taught by lectures, recitations, clinics and dispensary work in the third and fourth years.

### 1. GYNECOLOGY

Lectures and recitations in the anatomy, physiology and pathology of the female pelvic viscera, methods of gynecological examination, and the diagnosis and treatment of pelvic diseases. 2 hrs. a week, 2nd semester, 3rd year. Assistant Professor WIGHT.

*Two credit hours.*

## 2. CLINICAL GYNECOLOGY

Lectures and clinics in the clinical diagnosis and medical and surgical treatment of diseases of women. 2 hrs. a week, 2nd semester, 4th year. Professor TUCKER. *Two credit hours.*

## 3. PRACTICAL GYNECOLOGY

Dispensary work will be assigned to Senior students. Hours to be arranged.

# XIV. GENITO-URINARY DISEASES

Professor MACKAY

Assistant Professor WHITESIDE

Diseases of the genito-urinary tract will be considered didactically and clinically in the Junior and Senior years. Practical work will be given at the dispensary in cystoscopy, urethral, catheterization and modern methods of treatment.

## 1. LECTURE AND CONFERENCE

Lecture and conference in anatomy and physiology of the genito-urinary tract and study of the diseases affecting it. 2 hrs. a week, 2nd semester, 3rd year. Professor MACKAY.

*Two credit hours.*

## 2. CONTINUATION OF COURSE

With presentation of clinical work and accurate methods of diagnosis and treatment. 2 hrs. a week, 1st semester, 4th year. Professor MACKAY.

*Two credit hours.*

## 3. DISPENSARY WORK IN GENITO-URINARY DISEASES

Will be assigned as a part of the work in surgical dispensary. Assistant Professor WHITESIDE and others.

## 4. CLINIC

A clinic in the pathology, diagnosis, and treatment of genito-urinary diseases, and the use of the cystoscope and other diagnostic appliances. 1 hr. a week, 2nd semester, 3rd year; 1 hr. a week, 1st semester, 4th year. Multnomah Hospital. Assistant Professor WHITESIDE.

*One-half credit hour.*

## XV. OPHTHALMOLOGY, OTOTOLOGY, RHINOLOGY AND LARYNGOLOGY

Professor NUNN

Assistant Professor COGLAN

Dr. RALPH FENTON

Dr. KIEHLE

Dr. AINSLIE

These branches will be taught separately in the elementary work by means of lectures, demonstrations and recitations, and minor surgery, in the clinics during the Junior year. A more advanced course will be given in the Senior year, including major surgery.

### 1. EYE

A lecture and quiz course in the anatomy and physiology of the eye and in its more prevalent diseases. 2 hrs. a week, 2nd semester, 3rd year. Dr. AINSLIE. *Two credit hours.*

### 2. EAR, NOSE, AND THROAT

A course of lectures and quizzes in the anatomy and physiology of the ear, nose and throat and the pathology, diagnosis and treatment of their disorders. 2 hrs. a week, 2nd semester, 3rd year. Dr. KIEHLE. *Two credit hours.*

### 3. DISEASES OF THE EYE

An advanced course of lectures and clinics in the pathology, diagnosis and treatment of affections of the eye, ear, nose and throat. 2 hrs. a week, 1st semester, 4th year. Professor NUNN. *Two credit hours.*

### 4. DISEASES OF THE EAR, NOSE AND THROAT

A more advanced course in the diseases of the ear, nose and throat. 2 hrs. a week, 2nd semester, 4th year. Assistant Professor COGLAN. *Two credit hours.*

### 5. CLINIC

A clinical course in diseases of the ear, nose and throat at Multnomah Hospital. 1 hr. a week, entire 4th year. Dr. RALPH FENTON. *One-half credit hour.*

### 6. DISPENSARY

A practical course in which the students have an opportunity to examine and make observations on cases. 3 hrs. a week, 2nd semester, 3rd year; 2 hrs. a week, 1st semester, 4th year, at the Free Dispensary.

## RULES OF THE FACULTY

### ATTENDANCE

The roll will be taken at the beginning of each exercise by the instructor.

Attendance upon 80 per cent of the exercises in each subject is required in order to receive credit for that subject.

All students are required to be in actual attendance within the first week of the session and thereafter.

Each student must have been in attendance upon six obstetrical cases before graduation, and these cases will be assigned in rotation. When called to such cases, the student must respond without fail, or await the complete rotation to his name again.

No results of examinations shall be announced to students except from the Dean's office.

Cheating or any act of dishonesty during an examination shall be cause for immediate suspension of a student from classes, pending action of the Faculty, and upon sufficient evidence expulsion shall follow.

The Dean shall have the right to reject any applicant for admission.

The Dean shall have authority to summarily suspend any student for disorderly conduct, immorality, insubordination, or persistently poor class work, and to refer the case to the Faculty for the further penalty of expulsion.

Smoking is positively forbidden in the class rooms and laboratories.

Visitors must not be shown about the College Building without permission from the Office, or an invitation from a member of the Faculty.

### EXAMINATIONS

Each instructor shall give a written examination at the end of his course. A final examination on the entire subject will be given by the head of the department at the completion of the course.

A percentage grade of at least 75 must be secured in each subject in order to receive credit. This grade is based upon the general character of work, in quiz and laboratory, and the final examination.

A grade between 60 and 75 means a condition in the course involved, which implies that a second examination must be taken at the beginning of the next session.

In all re-examinations no grade over 75 will be given; the student either passes or fails.

A condition of more than one year's standing, without re-examination is a failure.

Three conditions necessitates repetition of the entire year's work.

In the event of two conditions, failure to remove at least one, necessitates repetition of the semester's work.

A grade below 60 is a failure, and necessitates repetition of the course in which it was received.

Two failures necessitate repetition of the entire year's work.

Students who for three successive years fail to secure advanced standing will not be permitted to continue their studies in the college.

Fourth year students are required to pass in all subjects before receiving degree of Doctor of Medicine. Conditions received in the fourth year, not to exceed two, may be removed by re-examination at the beginning of the following session, and, if removed, the student will receive the degree at the next succeeding commencement.

### RETURN OF FEES

Fees are not returnable at any time except by special action of the Faculty.

### COLLEGE PROPERTY

The people of Oregon, through the University Regents and the Medical College Faculty, grant to the students the proper use of the buildings and equipment. It is an honored privilege to guard this trust.

Any loan from the Medical College to students shall be returned whenever officially requested.

Loans, not returned upon request, are subject to a fine of five cents a day thereafter, and to the cost of the messenger sent for the property. Credit will be withheld until return of such.

Study materials may be purchased from the supply room, at cost, by coupon tickets of \$3.50 each, to be obtained from the Assistant Dean. Unused parts of coupon tickets will be redeemed at the end of the college year.

Certain apparatus and costly material is loaned from the supply room on receipt, and subject to special rules.

Circulating books and periodicals may be borrowed for a period of seven days.

Each laboratory and its equipment is controlled by its Director. Laboratory property should not be touched without proper consent.

Reference books and periodicals, apparatus and special materials may be obtained from any laboratory by personal arrangement with its director.

The Assistant Dean has immediate supervision of all college work and property. He may be consulted in the College Office.

## SCHOLARSHIPS AND PRIZES

One full scholarship and two half-scholarships are open to graduates of the University of Oregon with the degree of A. B., or B. S., of not more than two years' standing. The holders of the scholarships will be assigned to special work in the Medical Department subject to the Dean.

Six positions as student assistant in the laboratory branches are open to all students. These positions carry a salary of one hundred and fifty dollars per session, and scholarship and special qualification are considered in their allotment. Application for these positions must be made in writing to the Assistant Dean, and such application is subject to the approval of the instructor under whom the applicant contemplates serving.

### THE SAYLOR MEDAL

The Saylor Medal was founded by the late Professor Saylor. It will be awarded annually to the graduate in highest standing in all departments.

### THE ANATOMY MEDAL

The Anatomy Medal will be awarded annually to the undergraduate who receives the highest grade in Anatomy, including Gross Anatomy, Histology and Osteology. It will be presented at the time of the recipient's graduation.

The average of final grades will be taken as a basis for awarding the above medals; and the candidate must have done all work in some department of the University of Oregon.

### SCHOLARSHIPS 1913-1914

Ernest Dolph Lamb

### SCHOLARSHIPS 1914-1915

George Earl Fortmiller

Delbert C. Stanard

Ernest Dolph Lamb

### RECIPIENTS OF MEDALS 1913-1914

Harry M. Bouvy, Saylor Medal

Carl F. Larson, Anatomy Medal

## SCHEDULE FOR

	MONDAY	TUESDAY
First Semester (October 1 to January 31, inclusive)	8-9 Anatomy Quiz 9-12 Anatomy 1, 2 or 3	8-9 Chemistry 1 Lecture 9-12 Anatomy 4 Histology Laboratory
	1-5 Physiological Chemistry	Study
Second Semester (February 1 to June 1, inclusive)	8-9 Anatomy Quiz 9-12 Anatomy 1, 2 or 3	8-9 Study 9-12 Anatomy 5 Histology Laboratory
	1-3 Study 3-4 Physiology 2 Lecture 4-5 Physiology 3 Lecture	1-4 Physiology 2 Laboratory 4-5 Physiology 3 Lecture
